

Listing of Claims:

1-72 (canceled)

73. (Currently Amended) A method of treating acne comprising topically administering to a mammal in need of treatment therefor an effective amount of a composition comprising (a) tretinoin and (b) a nondenatured soybean extract of the entire soybean ~~which has not been denatured having~~ which contains nondenatured soybean trypsin-inhibiting activity inhibitor.

74. (Previously Presented). A method according to claim 73 wherein said nondenatured soybean extract is selected from the group consisting of soybean milk and soybean paste.

75. (Currently Amended) A method of treating acne comprising topically administering to a mammal in need of treatment therefor an effective amount of a composition comprising (a) retinol and (b) a nondenatured soybean extract of the entire soybean ~~having trypsin-inhibiting activity~~ which contains nondenatured soybean trypsin inhibitor.

76. (Previously Presented) A method according to claim 75 wherein said nondenatured soybean extract (b) is selected from the group consisting of soybean milk and soybean paste.

77. (Previously Presented) A method according to claim 73 wherein said nondenatured soybean extract is soybean powder.

78. (Previously Presented) A method according to claim 75 wherein said nondenatured soybean extract is soybean powder.

79. (Currently Amended) A method of treating acne comprising topically administering to a mammal in need of treatment therefor an effective amount of a composition comprising (a) about 0.01 to about 0.3 weight percent of tretinoin and (b) about 0.01 to about 50 weight

Serial No. 10/659,598

percent of a nondenatured soybean extract of the entire soybean having trypsin inhibiting activity which contains nondenatured soybean trypsin inhibitor.

80. (Previously Presented) A method according to claim 79 wherein said nondenatured soybean extract is a soy powder.

81. (Previously presented) A method according to claim 80 wherein said soy powder is present in an amount of about 0.05 to about 20 weight percent.

82. (Previously presented) A method according to claim 81 wherein said soy powder is present in an amount of about 0.5 to about 5 weight percent.

83. (Currently Amended) A method of treating acne comprising topically administering to a mammal in need of treatment therefor an effective amount of a composition comprising (a) about 0.1 to about 1 weight percent of retinol and (b) about 0.01 to about 50 weight percent of a nondenatured soybean extract of the entire soybean which contains nondenatured soybean trypsin inhibitor ~~having trypsin inhibiting activity.~~

84. (Previously Presented) A method according to claim 83 wherein said nondenatured soybean extract is a soy powder.

85. (Previously presented) A method according to claim 84 wherein said soy powder is present in an amount of about 0.05 to about 20 weight percent.

86. (Previously presented) A method according to claim 85 wherein said soy powder is present in an amount of about 0.5 to about 5 weight percent.
